EXPERIENCE

Type/Code, Brooklyn, NY - *Senior Frontend Engineer*

APRIL 2023 — JULY 2025

- Led frontend development strategy to build digital products in media, education, and nonprofit markets.
- Worked independently and among teams to produce objective-oriented websites and apps that increased organic traffic and reduced bounce rates.
- Directed frontend architecture for multiple large-scale publication apps, serving 1M visits per month.
- Built Docker containerized headless web applications with React, Typescript, Next.js, and Storybook, which consumed REST APIs or GraphQL endpoints.
- Helped manage projects from start to finish, delegating tasks and mentoring junior developers.
- Championed team adoption of Typescript, React, and Storybook to modernize development processes, making projects more efficient to build and maintain.
- Led a major refactor of the EL Education legacy website from Vue/Nuxt 2 to Vue/Nuxt 3.

Work & Co, Brooklyn, NY - *Senior Frontend Engineer*

OCTOBER 2021 — FEBRUARY 2023

- Collaborated with designers, product managers, strategists, and QA engineers to concept, prototype, and execute on a range of web products and apps across industries.
- Engineered UI/UX solutions using React, Typescript, and Next.js with focus on clean, well-documented code.
- Contributed to a production-ready component library for the PGA Tour using React and Storybook.
- Developed core logic and middleware for the Everfi embeddable financial education app.
- Peer reviewed the code and gave feedback on maintainable solutions and best practices.
- Responsible for key architectural decisions that shaped projects from early stages.
- Focused on web accessibility in accordance with ADA/WCAG standards.

Freelance, Brooklyn, NY - *Full-stack Engineer*

FEBRUARY 2019 — OCTOBER 2021

- Provided technical leadership and independently developed, tested, and launched websites and publishing platforms for clients in the arts and media space including Apartamento Studios and Capacity Studios.
- Guided clients and design teams to define scopes of work and project requirements.
- Worked with designers to convert Figma mockups to responsive websites using React and Next.js.
- Designed and implemented systems to support clients' business needs while accounting for scalability, performance, and maintainability.
- Implemented CI/CD pipelines per project using Netlify, AWS, and Github Actions.
- Ensured multiple concurrent clients had consistent updates, avenues for feedback, and technical support.

BBH New York, New York, NY - Front End Developer

AUGUST 2014 — JANUARY 2019

- Performed frontend web development on interactive content for clients across a wide array of industries, including hospitality, fashion, and luxury brands.
- Collaborated as part of a team of developers to convert design mockups to functional websites that met project requirements.
- Launched and contributed to projects of varying scales, from simple brochure sites to complex brand ecosystems.
- Created responsive HTML email templates with MailChimp integrations.

SKILLS

Languages: Javascript, Typescript, CSS/SCSS, HTML, GraphQL, PHP

Frameworks: React, Vue, Next.js, Nuxt, Vite

Content Management: Payload, Statamic, Wagtail, Sanity, WordPress

Tools: Git, Webpack, Docker, Redux, Zustand, Jest, AWS, Apollo, Storybook, Figma, Tailwind, Framer Motion

General: CSS Animation, Accessibility, Internationalization, Unit testing, Regression testing, CI/CD

PROJECTS

[A24 App](#)

Added features to and maintained the independent film and television producer and distributor's flagship all-access app. Offering streaming video on demand as well as integrations with A24's various membership perks.

Technologies: Vue, Nuxt, Ionic, Pinia, Django

[PGA TOUR](#)

Contributed to building the component library of the new face of the PGA TOUR web platform with deep data, a contextualized leaderboard, and intuitive fan experience.

Technologies: React, Typescript, Next.js, Chakra UI, Storybook, Framer Motion

[Stanford Institute for Human-Centered AI](#)

Led frontend strategy and worked on a small team to complete this web platform connecting key sectors and thought leaders to guide responsible AI development. It offers versatile publishing capabilities for a wide range of dynamic content, including interactive events, industry resources, policy insights, research reports, and more.

Technologies: React, Next.js, Typescript, Storybook, Statamic

[Gamers For Giving](#)

Built out the promotional website and blog for the annual streaming marathon and LAN party fundraiser for the Gamer's Outreach programs which provide entertainment devices to hospitalized children. This project helped them raise over \$1.7 million in their latest event.

Technologies: React, Gatsby, Sanity, Netlify

EDUCATION

Rochester Institute of Technology, May 2014

BS, New Media Interactive Development

Minors in Music and Technology, Visual Culture.
