Experience

Senior Developer, Work & Co

October 2021 — January 2023

Brooklyn, New York

Worked in small, highly collaborative teams to create visionary digital products and experiences that people use every day. Collaborated closely with designers, product managers, strategists, and QA engineers to concept, prototype, and execute on a range of products across industries. Clients include the PGA Tour, First Street Foundation, Everfi, and Creative Ladder.

- Structured technology solutions for clients and delivered clean, well-documented code.
- Peer reviewed the code of other developers and gave feedback on maintainable solutions and best practices.
- Responsible for key architectural decisions that shaped projects from early stages.
- Exercised agile workflows to organize tasks and meet project deadlines.
- Focused on accessibility in accordance with WCAG standards.

Technologies: *React, Typescript, Next.js, Chakra UI, Tailwind CSS, Storybook, Git, Sanity*

Freelance Web Developer

February 2019 — October 2021

Brooklyn, New York

Independently developed, tested, and launched beautiful and engaging websites and content for a variety of clients in the arts and media space, including Capacity Studios, Apartamento Studios, and MoMA Detroit.

- Worked with teams of designers to convert mockups to functional websites using modern tools and following best practices.
- Interfaced with clients and design teams to define a scope of work and project requirements.
- Ensured all clients had consistent updates, avenues for feedback, and technical support.
- Made technical recommendations based on the client's business needs.
- Designed data models within content management systems that allow clients to easily update their sites independently.
- Provided ongoing maintenance and technical oversight as business needs changed.
- Ensured functional and visual aspects met requirements with QA testing before launch of projects.

Technologies: *React, Typescript, PHP, Wordpress, NPM, Git, Gatsby, Next.js, Sanity, Netlify, WebGL*

Interactive Developer, BBH New York

August 2014 — January 2019

Brooklyn, New York

Frontend web development making interactive content for clients across a wide array of industries, including trends, hospitality, fashion, and luxury brands.

- Collaborated as part of a team of developers to convert design mockups to functional websites that meet project requirements.
- Launched and contributed to projects of varying scales, from simple brochure sites to complex brand ecosystems.
- Made technical recommendations based on changing design and scope requirements.

Technologies: *HTML, PHP, CSS/SCSS, Javascript, React, Wordpress, Vagrant, Git, NPM*

Web Developer, Brandlogic

June 2012 — September 2013
Rochester, New York

Frontend web development creating custom microsites for business-to-business clients.

- Created data visualization tools.
- Wrote data export scripts.
- Maintained websites using in-house CMS.

Technologies: *HTML, CSS/SCSS, Javascript, Git, NPM*

Skills and Tools

React, Typescript, Next.js, Git, GraphQL, SASS, Tailwind CSS, Storybook, Framer Motion, React Query, Webpack, Redux, Chakra UI, Sanity, Gatsby, Javascript, CSS, HTML, Vercel, Netlify, PHP, Wordpress, Vagrant, Mailchimp, AWS

Projects

Creative Ladder Career Finder

A simple online quiz that takes just minutes to complete, testing the personality of respondents and matching them with creative careers that suit them. It also serves as a resource for learning about the jobs, skills, and tools needed across creative industries.

Technologies: *React, Next.js, Framer Motion, Sanity*

TheGuide.Art

A cultural reference updated multiple times per day to provide visitors with exhibitions, performances, and events in the arts local to New York City. Produced in collaboration with Apartamento Studios.

Technologies: *React, Redux, Gatsby, Sanity, Netlify*

Capacity.gg

The portfolio site for the gaming-friendly digital agency, Capacity. A heavy emphasis was placed on animations and effects to compliment the studio's visual style. Made in partnership with Capacity Studios internally.

Technologies: *React, Gatsby, Three.js, Sanity, Netlify*

Education

Rochester Institute of Technology, May 2014

BS, New Media Interactive Development
Minors in Music and Technology, Visual Culture
