Experience

Freelance Web Developer

February 2019 — Present
Brooklyn, New York

Independently developing, testing, and launching beautiful and engaging websites and content for a variety of clients in the arts and media space.

- Worked with teams of designers to convert mockups to functional websites using modern tools and following best practices.
- Interfaced with clients and design teams to define a scope of work and project requirements. Ensured all clients had consistent updates, avenues for feedback, and technical support.
- Made technical recommendations based on the client's business needs.
- Designed data models within content management systems that allow clients to easily update their sites independently.
- Provided ongoing maintenance and technical oversight as business needs changed.
- Ensured functionality and visual aspects met requirements with QA testing before launch of projects.
